

AQUILA SHE BRIEF

Brief No.: AQL_SHE_1415
Title: Occupational Hygiene SEG Summaries
Relevant to: All Staff
Date: 19/02/2024

2023 Occupational Hygiene SEG Summaries Completed

The annual analysis of the 2023 occupational hygiene data, inclusive of respirable dust, silica, DPM, inhalable dust and noise exposures has been completed for each Similar Exposure Group (SEG) and is available at the SHE notice board (opposite the PPE bins).

The summaries have been prepared to show average exposure for all samples collected for each of the SEGs with comparison against historical data for trending where available.

Please see Anne Nissen if you would like any further clarification on the outcomes from the 2023 occupational hygiene sampling program.
