

# AQUILA SHE BRIEF

**Brief No.:** AQL\_SHE\_1429  
**Title:** Exploration Drilling of MG904 Gas Compliance boreholes  
**Relevant to:** All CMWs  
**Date:** 04/03/2024

## Exploration Drilling of MG904 Gas Compliance boreholes

A series of Exploration boreholes are to be drilled between 904MG 1-7 c/t and may be within 10m of UIS lines. If the hold point of any borehole is confirmed to be within 10m of a UIS line, it will require a spotter at the 95C/T "C" HDG stub.

The UIS lines in question are the AQU NEM 95C 04, AQU NEM 95C 05, AQU NEM 95C 05 Branch A & B. The spotter (if required above) will be present at the 95C/T "C" HDG Stub during the coring and grouting operations for any affected borehole.

If you have any questions, please do not hesitate to contact:
